

At Weatherhead High School, we appreciate that learning is not just something that happens in the classroom and our students enjoy a **rich experience** that extends beyond their lessons and helps create a **sense of belonging**. The extra-curricular programme and wider enrichment opportunities at Weatherhead include a **broad and diverse** range of activities offered at lunchtime, after school and at weekends with something for every student to capture their imagination and explore their interests. We encourage all students to get involved with at least one club or activity per week to really get the most of their school experience, make new friends and learn a variety of different skills that will build and develop character.

Extra-Curricular @ Weatherhead

There is an emphasis on the **creative arts** at Weatherhead, with a host of exciting opportunities for students to display their talents in art, dance, drama and music, including a number of competitions and showcases, and a professional-standard school musical production each year.

For the **sport enthusiasts**, there are plenty of opportunities to play individual and team sports, including football, netball, tennis, cricket, gymnastics, trampolining, rowing and athletics. Students have excellent success at both local and national competitions and tournaments, and the school proudly achieved the **School Games Mark Gold** award in 2024 in recognition of the diverse and inclusive sporting provision on offer at Weatherhead.

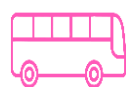

Weatherhead boasts one of the largest **Duke of Edinburgh's Award** programmes on the Wirral. It is a thriving and very popular programme, giving participants the opportunity to build on skills in teamwork, leadership and community, and we are proud of the high number of students who embark on their Bronze, Silver and Gold awards.

Extra-curricular activities at Weatherhead reach far beyond creative arts and sport, and students can get involved in clubs that range from cookery to chess and from history to gardening – there really is something for everyone.

Here is a snapshot of what is on offer for our students at Weatherhead High School....

Further to the extra-curricular activities available to students within school, Weatherhead has an exciting calendar of **school trips** to bring learning to life. Students have the opportunity to immerse themselves in history and science at local museums, see breath-taking landscapes in Iceland, experience the culture and cuisine of Spain, and take in the beautiful sights and artistry of Venice. All year groups have end of year rewards trips and for Year 7 students the annual summer residential trip to the **Conway Centre** is always a highlight.

Finally, students have plenty of opportunities to hone their **leadership** skills at Weatherhead. A vibrant and committed team of students represent their peers on the **School Council** and **Subject Ambassadors** represent students across the curriculum. The **Student Senior Leadership Team (SSLT)**, ably led by our **Head Girl**, is the pinnacle of student leadership at Weatherhead.
