

Weatherhead High School was only built 20 years ago and is in excellent condition, with fantastic **specialist facilities**, providing a stimulating and enriching learning environment for our students.

## School Facilities @ Weatherhead

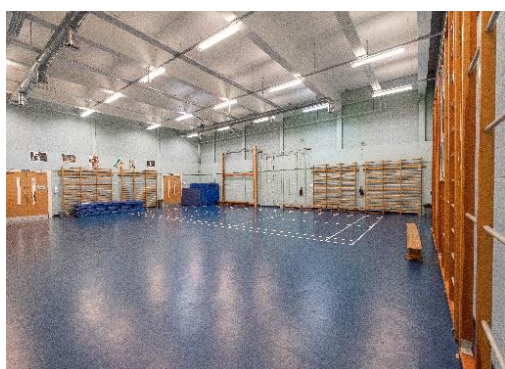

As well as bright and engaging classrooms, students have the opportunity to learn in specialist science labs, computing rooms and art, technology and food rooms equipped with specialist machinery and tools to bring learning to life. We even have a purpose-designed nursery to host our weekly **'Weathertots'** community parent and baby/toddler group.

Weatherhead High School boasts a **450-seat theatre** complete with stage and lighting equipment, a sprung-floor **dance studio** and two drama studios. Sports facilities are excellent, including a four-court sports hall, gymnasium, fitness suite, netball and tennis courts and a full-sized artificial grass **all-weather pitch**.

To foster a love of reading, our **Learning Resource Centre** is organised over two floors and offers students a calm and inspiring place to read or work, filled with a vast selection of books and resources.

Gymnasium

Netball Courts

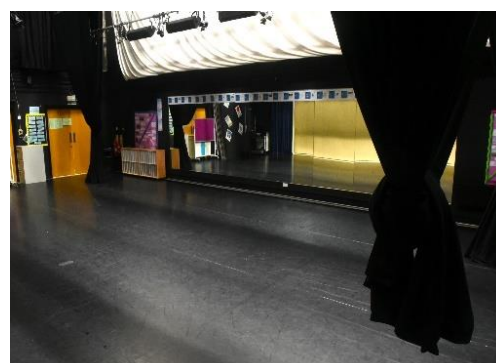

Sports Hall

Theatre

Artificial Grass Pitch

Dance Studio

In addition to the excellent teaching facilities, students also have access to a vibrant and welcoming **dining room**, serving breakfast options before the school day from 8.00am free of charge as well as a good selection of hot and cold lunch choices on a rotating weekly menu with themed days throughout the year.
