The school day is organised to ensure that students are able to make the most of every day in school and the opportunities it affords. Each day starts with a **tutor period**, allowing students to 'get set' for the day ahead, receive important information shared by their tutor and spend time engaging with their fellow tutees. **Five lessons** are timetabled each day and there is a short change over between lessons to allow students to move quickly and calmly from A to B. Lessons which are **an hour in length** give teachers and their students time to explore concepts in depth, undertake practical activities without rushing and allow students important time for thinking, discussion and independent work. In total, students have **25 lessons per week** and the curriculum is delivered across a **two week timetable** (Weeks A and B), comprising 50 lessons in total.

Each morning, the dining room is open from 8.00am, providing a **breakfast** snack for students on a free of charge basis. At the end of the day, many students choose to stay behind after school to take part in extra-curricular activities, attend study support clubs or read / complete homework in the library.
